

Automated Workflows Settings

<https://campus.barracuda.com/doc/96022038/>

This functionality is available only with Barracuda Email Protection [Premium](#) and [Premium Plus](#) plans. To upgrade to one of these plans, contact your Barracuda Networks Sales Representative.

To specify Automated Workflows default settings:

1. Log into [Incident Response](#).
2. From the menu, select **Settings**.
3. On the **Settings** page, select the **Automated Workflows** tab.
4. For automated workflows with email notifications: If you want to use the same Security Team Email you specified in Manual Remediation settings, select **Yes**. Otherwise, select **No** and enter a new Security Team Email for a single person or distribution list.
5. For automated workflows with Slack notification: To receive Slack notifications, you must specify the webhook for Slack. For more information on how to set up incoming webhooks, see [Setting up Incoming Webhooks for Slack](#).
6. For automated workflows with Microsoft Teams notification: To receive Microsoft Teams notifications, you must specify the webhook for Teams. Go to [Create Incoming Teams Webhooks](#) for more information.
