Settings

https://campus.barracuda.com/doc/96024473/

Use the **Settings** to connect to Microsoft 365 data sources, add classifiers, manage users and email notifications, and set privacy options.

- Connectors – View, authorize, or reauthorize your Microsoft 365 data sources.
- Policies – Create Policies to help control the way files are handled by Barracuda Data Inspector.
- Classifiers – Locate files containing the keywords you define.
- Notifications – Configure email notifications for administrators and end users.
- Users – Assign or edit users' roles.
- Data – See the storage region and manage your consent and cookie privacy settings.
