

## Intronis Backup Plan Billing Strategies

<https://campus.barracuda.com/doc/96025692/>

The ECHOplatform - ConnectWise integration provides a flexible interface for setting up billing integration, which allows you to bill for your service the way you like. Outlined below are three potential billing strategies that you may choose to follow when billing for the Intronis Backup Plan through ConnectWise.

**Note:** All strategies described below involve billing for Intronis Backup Plan usage. Local backup, QuickSpin Host Licenses, Hyper-V Host licenses, and Imaging licenses are billed at a price-per-license in all cases. These licenses require their own cross-references of type **BackupUsage**, **LocalBackup**, **VMwareHostLicensing**, **Hyper-VHostLicensing**, and **ImageLicensing** for each level.

The billing strategies are as follows:

- [Universal Price-per-GB](#)
- [Price-per-GB by plan](#)
- [Block storage](#)
