

## How to Enable Firewall Objects on a Range or Cluster Level

<https://campus.barracuda.com/doc/96026431/>

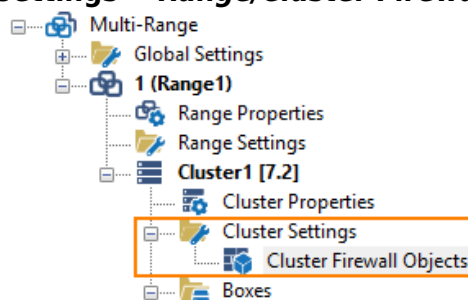

### Enable Own Network Objects on Range/Cluster Level

1. Log into your Control Center.
2. Go to **CONFIGURATION > Configuration Tree > Your Range/Cluster > Range/Cluster Properties**
3. Click **Lock**.
4. In the **Specific Settings** section, set **Own Firewall Objects** to **yes**.

Specific Settings	
Disable Update	no
Collect Statistics	yes
Own Cook Settings	no
Own Event Settings	no
<b>Own Firewall Objects</b>	<b>yes</b>
Own VPN GTI Editor	yes
Own Access Control Objects	no
Own Traffic Shaping Settings	no

5. Click **Send Changes** and **Activate**.
6. Go to **CONFIGURATION > Configuration Tree > Your Range/Cluster > Range/Cluster Settings > Range/Cluster Firewall Objects**

You can now add own network objects on range and/or cluster level. For more information on how to add network objects, see [Network Objects](#).
