

Sessions Page

<https://campus.barracuda.com/doc/96026486/>

The **Sessions** page lets you view a list of active sessions on the Barracuda CloudGen Firewall. To access the **Sessions** page, open the **CONTROL** tab and click the **Sessions** icon in the ribbon bar.

PID	Type	Service	Peer	Start	Idle	Admin
4079	boxconfig		127.0.0.1:1...	82 d	7 s	-
4073	boxconfig		127.0.0.1:2...	82 d	7 s	-
4072	firewall	NGFW	127.0.0.1:3...	82 d	7 s	-
4071	firewall	NGFW	127.0.0.1:3...	82 d	7 s	-
4819	boxconfig		10.17.4.75:...	116 m	64 s	root
4792	box	control	10.17.4.75:...	116 m	24 m	root
4777	Firewall Admin		10.17.4.75:...	116 m	116 m	root
23513	box	control	10.17.4.75:...	25 s	0 s	root

Information Display

The information display shows session details on processes that have been initiated by users.

PID	Type	Service	Peer	Start ^	Idle	Admin
 4079	boxconfig		127.0.0.1:1...	82 d	7 s	-
 4073	boxconfig		127.0.0.1:2...	82 d	7 s	-
 4072	firewall	NGFW	127.0.0.1:3...	82 d	7 s	-
 4071	firewall	NGFW	127.0.0.1:3...	82 d	7 s	-
 4819	boxconfig		10.17.4.75:...	116 m	64 s	root
 4792	box	control	10.17.4.75:...	116 m	24 m	root
 4777	Firewall Admin		10.17.4.75:...	116 m	116 m	root
 23513	box	control	10.17.4.75:...	25 s	0 s	root

Information for each session is divided into the following columns:

- **PID** – The process ID (PID).
- **Type** – The service type. (The type of service is also indicated by an icon next to the PID.)
- **Service** – The service name.
- **Peer** – The IP address where the session started from.
- **Start** – The time period that has passed since the session started.
- **Idle** – The length of time that the session has been idle.
- **Admin** – The name of the administrative account that has logged into the session.

To terminate a session in this list, right-click it and select **Kill Session**.

Order of Sessions

By default, sessions are displayed in ascending order according to the time they were initiated. This is indicated by the blue highlighted category label. The small triangle indicates the sort order of the displayed table entries, which can be either ascending or descending.

To change the sort order, click on the corresponding label of a table category.

Reordering Columns in the Session Table

To reorder the columns in the process table, drag and drop the column header to your desired position.

Customizing Categories in the Session Table

You can customize the categories of the columns shown in the **Session** table.

To specify the information category of your choice:

1. Right-click inside of the display area of the **Session** table.
2. In the pop-up menu, click on **Select Columns...**
3. From the **Available Columns** table, select the category that you want to be displayed in the table .
4. Click on the > button to move the information field from the column **Available Columns** to the **Current Columns**. Entries in the table **Current Columns** will be displayed in the list order. Click on < to remove the category from the values to be displayed .
5. To the apply the changes, click **Close**.
