

How to Manually Install License Files

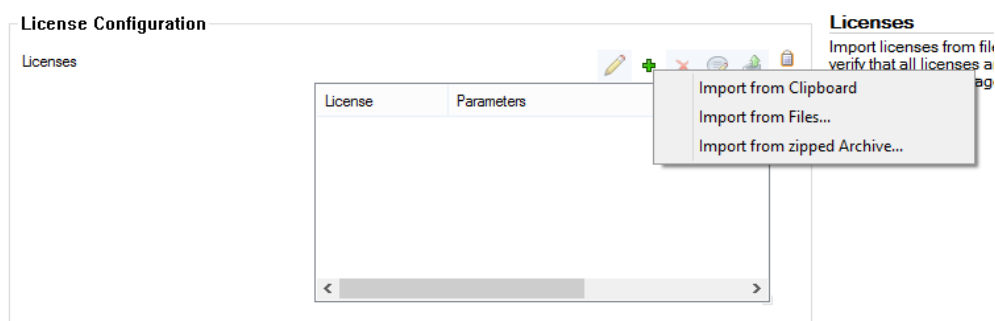

<https://campus.barracuda.com/doc/96026653/>

If automatic license retrieval is not possible or you received the license files (*.lic) directly from Barracuda Networks Technical Support, install these licenses manually on your Barracuda CloudGen Firewall or Barracuda Firewall Control Center.

Manual License Installation

Import your licenses from the lic license files. The lic files can also be in a ZIP archive.

1. Go to **CONFIGURATION > Configuration Tree > Box > Box Licenses**.
2. Click **Lock**.
3. In the **Licenses** section, click **+** and select **Import from Files** or **Import from zipped Archive**.

4. Select your license files and click **Open**.
5. Click **OK** to close the **Certificate View** window.
6. Accept the End User License Agreement and click **OK**.
7. Click **Send Changes** and **Activate**.

Verify Installed Licenses

Open the **CONTROL > Licenses** page and verify that all licenses are installed successfully.

Normal box operation
