Updated

- [How to Deploy the Barracuda Outlook Add-In](#) - Updated with latest instructions.

Incident Response (formerly Barracuda Forensics & Incident Response)

Updated

- [Creating an Incident](#) - You can now create an incident to investigate the impact of the incident without deleting emails or any remediation action.
- [Reviewing Incidents](#) - Once you have reviewed and have completed the investigation, you can click on the button "Delete emails" to delete the emails impacted.

Security Awareness Training (formerly Barracuda PhishLine)

Updated

- [Before You Begin](#) - Added section detailing Limitations on Custom Content for administrators.
- [How to Create a Training Campaign](#) - Added note that SAT is unable to send SMS/Voice messages to certain countries and regions, so call Barracuda Networks Support if unsure.
- [How to Create an SMS Campaign](#) - Added note that SAT is unable to send SMS/Voice messages

to certain countries and regions, so call Barracuda Networks Support if unsure.

Barracuda WAF-as-a-Service

Updated

- [Response Pages](#) - The Response Pages component is now live. The Custom Error Page component has been retired since its functionality is fully available in Response Pages.
- [Understanding Deployment Locations](#) - The North America and West Europe (Legacy) location is now deprecated. Added link for apex domains.

Reference

Updated

- [How to Open a Support Tunnel](#) - Added that the support tunnel remains OPEN even after you close the Troubleshooting window - there was confusion about this in the past.
