

How to Configure Microsoft Entra ID Authentication

<https://campus.barracuda.com/doc/96766628/>

OIDC authentication can be configured for enrolling devices through a specific identity provider.

Configure Microsoft Entra ID Authentication

1. Go to **Identity > Settings**.
2. In the **Authentication Protocol** section, click **Activate Provider**.

Authentication protocol

Identity provider

This setting enables enforcement of authentication for all users when enrolling a new device and for Administrators that select SSO authentication.

Activate provider ^

- SAML 2.0
- Custom OpenID Connect
- Google OpenID Connect
- Microsoft OpenID Connect
- Barracuda BCC Login
- Email backed

User directories

Add Directory v

List

Auto

3. Click on *Microsoft OpenID Connect*.

You can create a comma-separated list of all Microsoft Entra ID Tenant IDs you wish to use for SSO. Each tenant ID will become a link once you accept the form. A Microsoft Entra ID administrator must click on each of these links to grant administrator consent to our OpenID Connect Authenticator app.
