

Upgrade Path for the Barracuda Web Application Firewall

<https://campus.barracuda.com/doc/96768144/>

This article provides information about the upgrade path for the Barracuda WAF. Depending on the version of the Barracuda WAF that is currently installed, you may need to do multiple upgrades to reach the latest version. For example: If you have the Barracuda WAF with version v9.2.0.014 installed and want to upgrade it to the latest version (i.e., v11.0.0.007), you will have to do three (3) upgrades (v9.2.1.005, v10.0.1.005 and v10.1.0.007) before you upgrade to v11.0.0.007.

Follow the upgrade path mentioned in the table below to upgrade your system to the desired version:
