Restore Disk Image Standard as Virtual Machine API

https://campus.barracuda.com/doc/96772117/

This section provides the following topics:

- Obtaining a revision's hardware configuration
- Create Hyper-V Host Browsing Session
- Registering a Remote Hyper-V Host
- Registering a Local Hyper-V host
- Get registered Hyper-V hosts
- Connecting to a registered Hyper-V host
- Get virtual switches of a registered Hyper-V host
- Obtaining capabilities of a Hyper-V host
- Obtaining settings of a registered Hyper-V host

Allows restoring a group of revisions, previously identified, and specifying the destination, either as a local disk or as a network share path, optionally with username and password to authenticate that network share.
