

## Update Status for Action

<https://campus.barracuda.com/doc/96772735/>

**Update status for action** updates the status of the backup set. Authentication is done using a special token created only for that agent.

Each agent has its own token and is not able to access data from other computers.

PUT /v2/accounts/fracc/computers/0000/action/9/status

```
{  
  
  "status": 1,  
  
  "reason": "Backup Set created"  
}
```
