

Viewing Email Security Trends by Threat Level

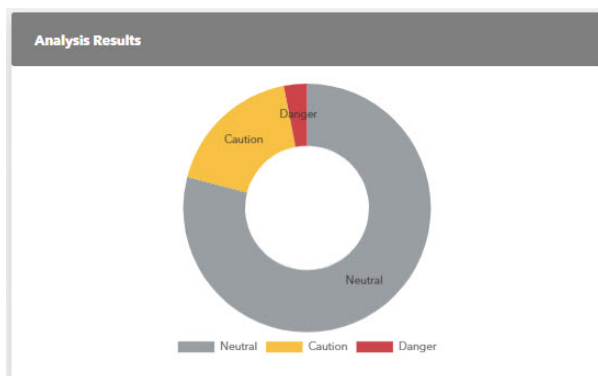

<https://campus.barracuda.com/doc/96774286/>

The **Email Security** page displays two graphs that give you important information about email threat levels at a glance. You can quickly view threat level results on these two graphs:

- **Analysis Results**
- **Analysis Results by Date**

If you don't see the charts and graphs on the **Email Security** page, click the **Show Charts** link.

The Analysis Results Graph

A graph shows the proportion of email threats of each threat level. You can click any section of this chart to [create a quick filter](#).

To see the percentage of emails with a certain threat level

1. In **Barracuda XDR Dashboard**, click **Intelligence > Email Security**.
2. In the **Analysis Results** graph, hover your cursor over one of the threat levels:
 - **Neutral**
 - **Caution**
 - **Danger**

Analysis Results by Date Graph

A line graph that shows the number of emails with each threat level that were received per day/hour.

The **Analysis Results by Date** graph changes if the page is [filtered by date](#).
