

Computer Notifications Email

<https://campus.barracuda.com/doc/97517791/>

| | |
|----------------|-----------------------------------------------------------------------------------------------------------------------------|
| URI | /v1/accounts/{username}/computers/{computer_id}/notifications/emails/{email_id} |
| URI Parameters | <ul style="list-style-type: none">• username (string)• computer_id (string)• email_id (int) |
| Methods | GET, PUT, DELETE |

GET

/v1/accounts/{username}/computers/{computer_id}/notifications/emails/{email_id}
}

Gets an email's information.

| | |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Scope | computers_read |
| Request Body Parameters | <ul style="list-style-type: none">• n/a |
| Response Attributes | <ul style="list-style-type: none">• email (string)• backup_completed (bool) - If true, the email will receive the Backup Completed Notification• backup_warning (bool) - If true, the email will receive the Backup Warning Notification• backup_failed (bool) - If true, the email will receive the Backup Failed Notification• backup_missed (bool) - If true, the email will receive the Backup Missed Notification• no_recent_backup (bool) - If true, the email will receive the No Recent Backup Notification |

Example JSON

Request:

GET /v1/accounts/barracuda/computers/0000/notifications/emails/10 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Accept: application/json

Response:

HTTP/1.1 200 OK

Content-Type: application/json

```
{  
  
  "email": "support@barracudamsp.com",  
  
  "backup_completed": false,  
  
  "backup_warning": false,  
  
  "backup_failed": false,  
  
  "backup_missed": true,  
  
  "no_recent_backup": false,  
  
}
```

Example XML

Request:

GET /v1/accounts/barracuda/computers/0000/notifications/emails/10 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Accept: application/xml

Response:

HTTP/1.1 200 OK

Content-Type: application/xml

```
<?xml version="1.0" encoding="UTF-8"?>
```

```
<email>
```

```
  <email>support@barracudamsp.com</email>
```

```
  <backup_completed>>false</backup_completed>
```

```
  <backup_warning>>false</backup_warning>
```

```
  <backup_failed>>false</backup_failed>
```

```
  <backup_missed>>true</backup_missing>
```

```
  <no_recent_backup>>false</no_recent_backup>
```

```
</email>
```

PUT

/v1/accounts/{username}/computers/{computer_id}/notifications/emails/{email_id}
}

Edits an email's information.

| | |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Scope | computers_write |
| Request Body Parameters | <ul style="list-style-type: none">• email (string)• backup_completed (bool) - If true, the email will receive the Backup Completed Notification• backup_warning (bool) - If true, the email will receive the Backup Warning Notification• backup_failed (bool) - If true, the email will receive the Backup Failed Notification• backup_missed (bool) - If true, the email will receive the Backup Missed Notification• no_recent_backup (bool) - If true, the email will receive the No Recent Backup Notification |
| Response Attributes | <ul style="list-style-type: none">• n/a |

Example JSON

Request:

POST /v1/accounts/barracuda/computers/0000/notifications/emails/10 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Content-Type: application/json

```
{  
  
  "email": "support@barracudamsp.com",  
  
  "backup_completed": false,  
  
  "backup_warning": false,  
  
  "backup_failed": false,
```

```
"backup_missed": true,  
"no_recent_backup": false,  
}
```

Response:

HTTP/1.1 204 No Content

Example XML

Request:

GET /v1/accounts/barracuda/computers/0000/notifications/emails/10 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Content-Type: application/xml

```
<?xml version="1.0" encoding="UTF-8"?>
```

```
<email>
```

```
<email>support@barracudamsp.com</email>
```

```
<backup_completed>>false</backup_completed>
```

```
<backup_warning>>false</backup_warning>

<backup_failed>>false</backup_failed>

<backup_missed>>true</backup_missing>

<no_recent_backup>>false</no_recent_backup>

</email>
```

Response:

HTTP/1.1 204 No Content

DELETE

/v1/accounts/{username}/computers/{computer_id}/notifications/emails/{email_id}
}

Deletes an email from a computer's notifications. The 0 email_id cannot be deleted and the server responds with 405 Method Not Allowed.

| | |
|-------------------------|-----------------|
| Scope | computers_write |
| Request Body Parameters | • n/a |
| Response Attributes | • n/a |

Example

Request:

DELETE /v1/accounts/barracuda/computers/0000/notifications/emails/10 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Response:

HTTP/1.1 204 No Content

Example 0 email_id

Request:

DELETE /v1/accounts/barracuda/computers/0000/notifications/emails/0 HTTP/1.1

Host: api.intronis.com

Authorization: OAuth vF9dft4qmT

Response:

HTTP/1.1 405 Method Not Allowed
