

Try This—Looking at Assets

<https://campus.barracuda.com/doc/97518095/>

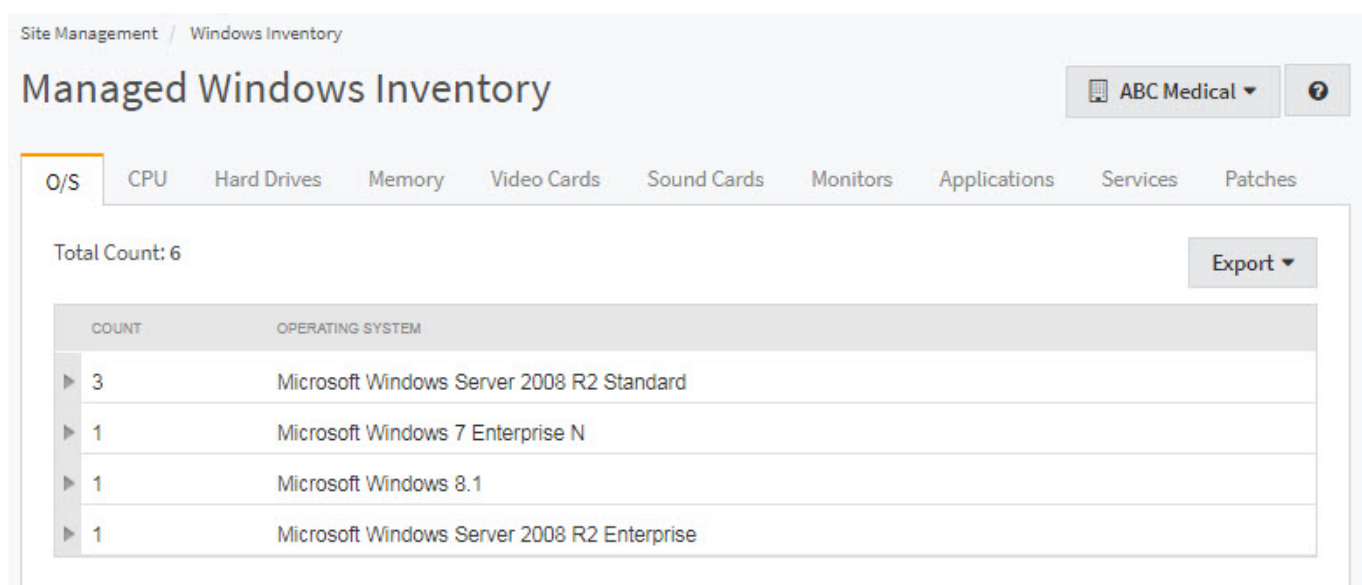

Now that you have addressed any onboarding issues, you can have a look at the assets available to group and monitor.

View a summary of assets

1. In Service Center, click **Site Management > Windows Inventory**.
2. Select your site from the list at the top right of the page.

3. Browse through the tabs to see the different types of inventory.

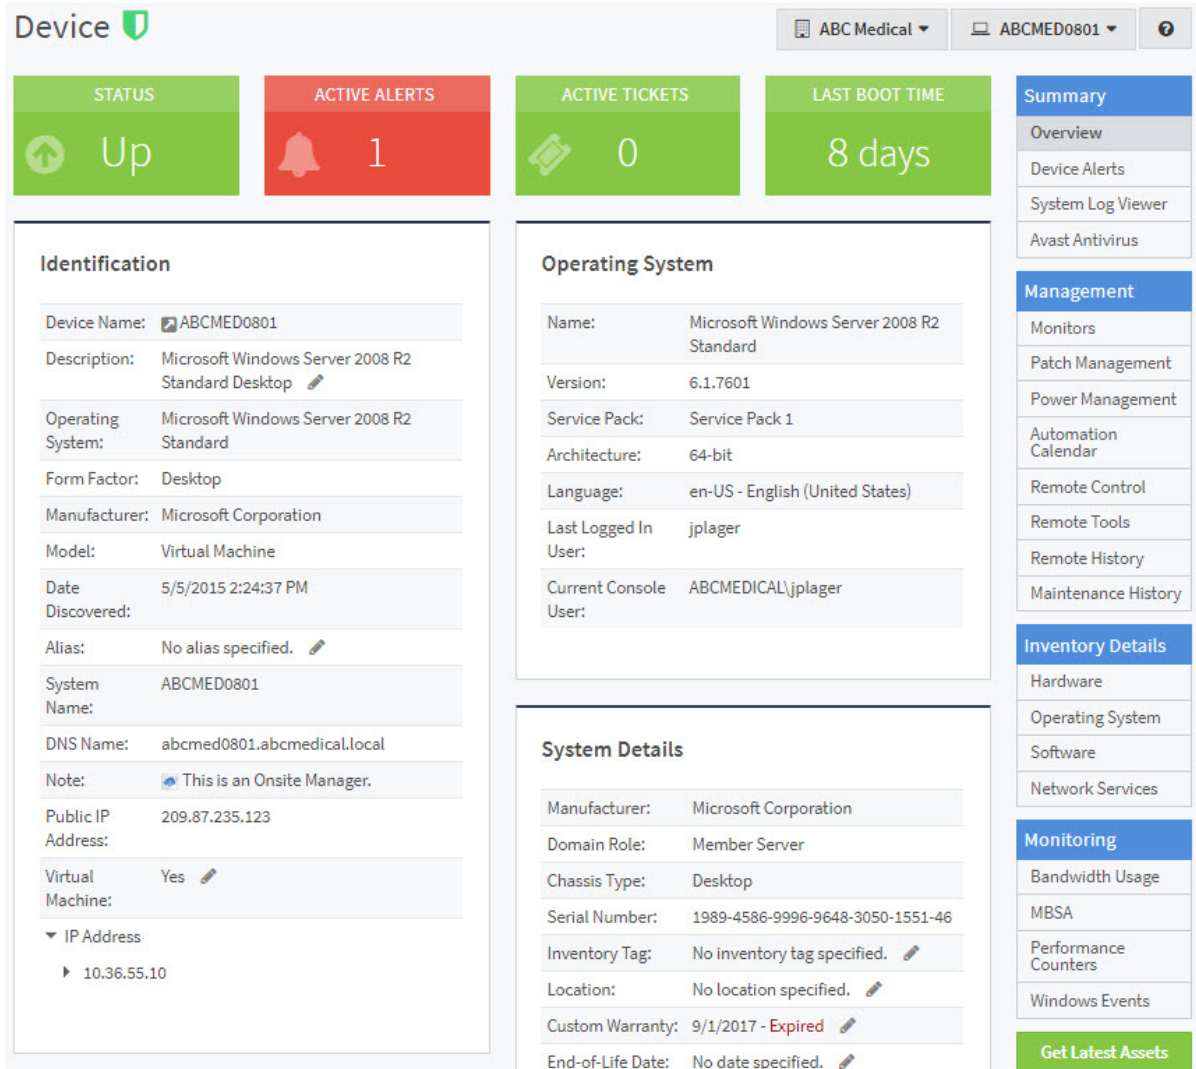

The screenshot shows the 'Managed Windows Inventory' page. At the top, there is a breadcrumb 'Site Management / Windows Inventory' and a title 'Managed Windows Inventory'. On the right, there is a site selection dropdown 'ABC Medical' and an information icon. Below the title, there are tabs for different inventory types: 'O/S', 'CPU', 'Hard Drives', 'Memory', 'Video Cards', 'Sound Cards', 'Monitors', 'Applications', 'Services', and 'Patches'. The 'O/S' tab is selected. Below the tabs, there is a 'Total Count: 6' and an 'Export' button. A table displays the following data:

COUNT	OPERATING SYSTEM
▶ 3	Microsoft Windows Server 2008 R2 Standard
▶ 1	Microsoft Windows 7 Enterprise N
▶ 1	Microsoft Windows 8.1
▶ 1	Microsoft Windows Server 2008 R2 Enterprise
