

Barracuda Advanced Bot Protection Cloud Infrastructure Upgrade Information

<https://campus.barracuda.com/doc/97520097/>

Program Name: ATI Upgrade

Action Required: Upgrade Barracuda WAF firmware

Applicable for: WAF Appliance and Virtual instances.

On August 31, 2022, Barracuda Advanced Bot Protection (ABP) Cloud Infrastructure is being upgraded with new features and increased resiliency for existing components. These changes will affect connected Barracuda WAF units that are not running the minimum recommended firmware version based on the instance type.

The changes will be effective from August 31, so it is recommended that you upgrade your Barracuda WAFs to the minimum recommended version before August 31, 2022.

The 11.0.1.009 firmware version is not available on the **ADVANCED > Firmware Update** page and requires an explicit upgrade. To upgrade to 11.0.1.009, contact [Barracuda Networks Technical Support](#).

The following tables provide information on the model/instance type, and the minimum recommended and latest firmware version details:

Barracuda WAF Appliance

Hardware Model	Current Firmware Version	Minimum Recommended Firmware Version	Latest GA Firmware Version
360, 460, 660, 860, 861, 662, 960, 961, 964, 1060, 1061, 1062	9.x.x.x	11.0.1.009	12.0.0.006
	10.x.x.x	11.0.1.009	12.0.0.006
	11.x.x.x	11.0.1.009	12.0.0.006

Barracuda WAF Virtual Instances

Vx Instance Model	Current Firmware Version	Minimum Recommended Firmware Version	Latest GA Firmware Version
-------------------	--------------------------	--------------------------------------	----------------------------

360Vx, 460Vx, 660Vx, 770Vx, 860Vx, 960Vx	9.x.x.x	11.0.1.009	12.0.0.006
	10.x.x.x	11.0.1.009	12.0.0.006
	11.x.x.x	11.0.1.009	12.0.0.006
