On the **Results** page, you can also view additional information on impacted and unassessed assets.

To view more information about impacted or unassessed assets, click the link in one of the following columns:

- **Impacted Assets**
- **[Unassessed Assets](#)**

A window pops up with additional information on each individual asset that is impacted or unassessed. The window contains different information for each type of asset:

- For **devices**, it displays name, operating system, and IP address.
- For **user accounts**, it displays the domain and user name.
- For **domain policies**, it displays the name of the policy.
