
How to Install and Update Service Modules

<https://campus.barracuda.com/doc/98217172/>

You can install a new service module through the Update Center by selecting a service module from the list of new service modules available for installation. This list is updated periodically as new service modules are released in Barracuda RMM.

Upgrading a Service Module

To upgrade a service module, please follow the steps below:

1. In the Service Center click **Configuration** and select **Service Modules**.
2. Click **Get More**.
The **Components** page opens with a list of modules available for installation.
3. Select the checkbox beside the service module you would like to install.
4. Click **Install**.

Importing a Service Module

You can import any service modules that you have exported from the Service Center by following the steps below:

1. In the Service Center click **Configuration** and select **Service Modules**.
2. Click **Add**.
3. Click **Browse** to locate the service module.
