

Deploying the SentinelOne Agent: Finding your SentinelOne Site Token

<https://campus.barracuda.com/doc/98217265/>

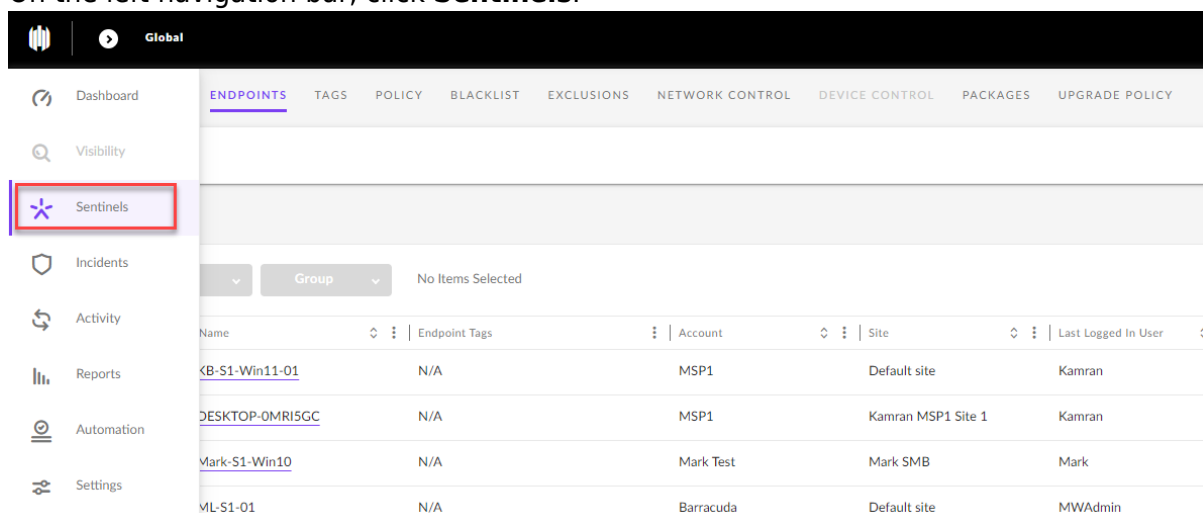

In order to deploy the SentinelOne agent using Barracuda RMM, you must know your SentinelOne site token.

This Knowledgebase article guides you through the following:

- Finding your SentinelOne site token
- Creating a SentinelOne site if you don't have one

To find your SentinelOne site token

1. In a web browser, navigate to <https://<DomainName>.sentinelone.net/dashboard>, where <DomainName> is the domain name of your SentinelOne account.
2. On the left navigation bar, click **Sentinels**.

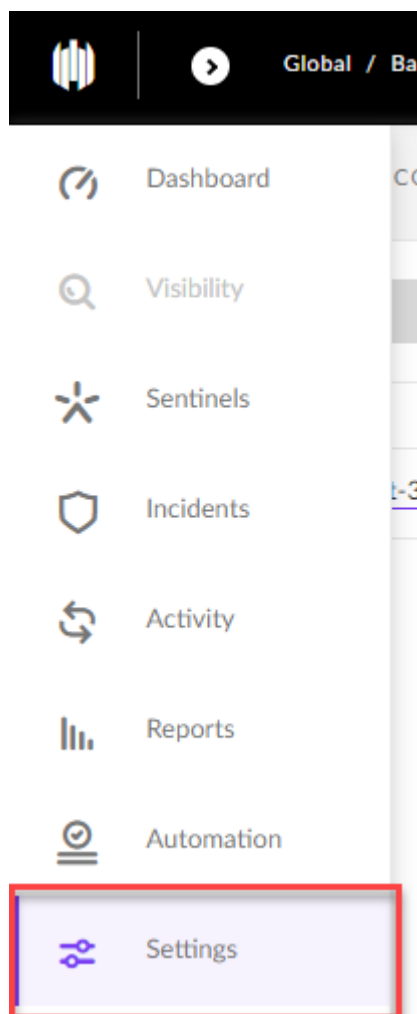

3. Click the name of the site.

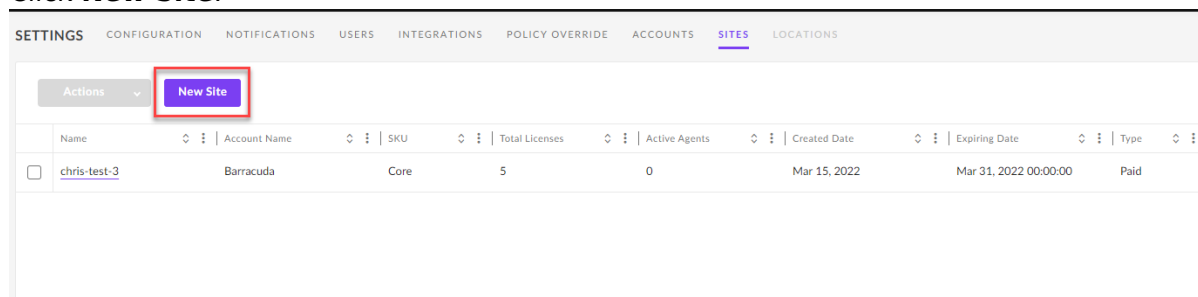

1. In a web browser, navigate to and log in to your SentinelOne account.
2. On the left navigation bar, click Settings.

3. Click **New Site**.

4. Complete the required fields.

5. To retrieve the site token for this site, follow steps 3-5 of the procedure above.
