

Access to Software - On Premise

<https://campus.barracuda.com/doc/98220477/>

Barracuda RMM installation packages are available on the Partner Portal. You will be provided with a login and password so that you can download the installers.

The packages available for download include the following:

Service Center installer A download that does not contain any redistributables. If a component is missing from the computer you are installing to, you can use a download link to fetch it.

Onsite Manager installer Does not contain any redistributables, but will check for any missing components and will provide a link to download the product on Microsoft's website.

The Onsite Manager installer can also be downloaded from within Service Center, in the **Site Management** page.

Onsite Manager appliance installer Used with Microsoft's System Preparation utility to create an image to clone Onsite Managers. It is otherwise identical to the Onsite Manager installer.
