

## How to Verify Enrolled Devices and Users

<https://campus.barracuda.com/doc/98225254/>

The SecureEdge Manager displays all enrolled devices with respect to each user in the selected workspace. An enrollment link is sent to the user via email. After the user enrollment process is complete, the device automatically appears in the Cloud UI. The single user can enroll multiple devices on the same token, and a separate row is provided for each device. An un-enrolled user cannot use their existing enrollment link to re-enroll.

### Verify Enrolled Devices

1. Go to <https://se.barracudanetworks.com/> and log in with your existing Barracuda Cloud Control account.
2. Select the workspace your device is enrolled in.
3. In the left menu, click the **Access** icon and select **Enrolled Devices**.

The **Devices** page opens. All enrolled devices deployed in the selected workspace are displayed. You can see that your device is enrolled. For example, in this case, a Windows device is enrolled, running on a Dell XPS notebook.

Zero Trust Access > Devices

							<a href="#">Add filter</a>	<a href="#">Edit columns</a>	<a href="#">Download CSV</a>
USER	EMAIL	DEVICE BRAND	DEVICE MODEL	OPERATING SYSTEM	OS VERSION	ENROLLMENT DATE			
Alice Warden	alice@companyazure.on...	samsung	SM-A536B	Android	14.0.0	2024-04-17 08:06			
Alice Warden	alice@companyazure.on...	LENOVO	ThinkPad E580	Windows	10.0.19045.4046	2024-04-17 08:06			
Bob Smith	bob@companyazure.on...	Dell Inc.	XPS	Windows	10.0.22631.3235	2024-04-17 08:06			

It is recommended to unenroll or remove old entries from the **Devices** page because enrolled devices can sometimes be counted multiple times.

For example, if you uninstalled the SecureEdge Agent on your device without manually unenrolling it and then you try to re-install the Agent, it must be re-enrolled and will display as a new entry on the **Devices** page.

4. To get more detailed information about a user and devices, click **Edit columns**.

6. Click **Save**.

## Remove an Existing Enrolled Device

- Go to <https://se.barracudanetworks.com/> and log in with your existing Barracuda Cloud Control account.
- Select the workspace you want to remove an existing enrolled device from.
- In the left menu, click **Access** and select **Enrolled Devices**.  
The **Devices** page opens. All devices enrolled in the selected workspace are displayed.
- To remove an enrolled device, click on the trash can icon next to the enrolled user.

The **Delete Device** page opens.

## Delete Device

Are you sure you want to delete this device?

Cancel

Ok

5. Click **OK**.

## (Optional) Verify Enrolled Users in Barracuda Firewall Admin

1. Open the Barracuda Firewall Admin application.
2. Select **Firewall** in the login window.
3. Provide **Management IP**, **Username**, and **Password**.

## Barracuda CloudGen Firewall

☒ Firewall ☐ Control Center ☐ SSH

IP Address / Name: 10.27.35.60

Username
