

Bot Categories (Application View)

<https://campus.barracuda.com/doc/98225860/>

The **BOT CATEGORIES** section provides access to logs generated by the Advanced Bot Protection service. These log events include information on the following:

- **Bot Traffic** - Displays the bot requests that are categorized based on their behavior. To see the graph for a particular bot category, deselect all other categories apart from the category you want to see the graph for. Click on the category to deselect.
- **Geo Distribution** - Displays the geographical location where the bot requests originated from. Hover over the map to view the number of bot requests originating from a particular region/country.
- **Bot Sessions** - The table displays the session details of the bot request.
 - **Bot ID** - A unique ID assigned to the identified bot.
 - **BOT NAME** - Name of the bot.
