

Unique IDs

<https://campus.barracuda.com/doc/98227610/>

Unique IDs are assigned when partners purchase, assign, and manage the same service with different prices.

Each purchase of a service beyond the initial one is assigned a Unique ID to the service name to identify and distinguish the service.

This Unique ID is not created or editable by the partner, but instead must be specified by partner support at the time of purchase and is displayed accordingly.

The following image provides an example of a unique ID for Essential Services.

BILLING TYPE	PRODUCT FAMILY	UNIQUE ID / PLAN	LEVEL
Essentials Service	(INTL) Email Complete Protection	ess test 1	1872

Below is an example comparing a non-unique ID with a unique ID.

<input type="checkbox"/> Email Security & Compliance	Non-Unique ID
▼ Barracuda Sentinel Service	
<input type="checkbox"/> Sen54	Unique ID
