

## Logging in and Accessing the MSP App Accounts Page

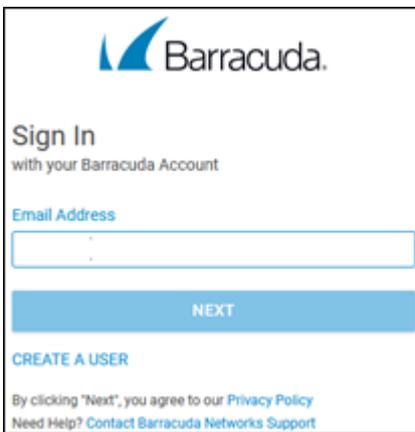

<https://campus.barracuda.com/doc/99616982/>

To access the MSP App Accounts Page, perform the following steps.

### Required!

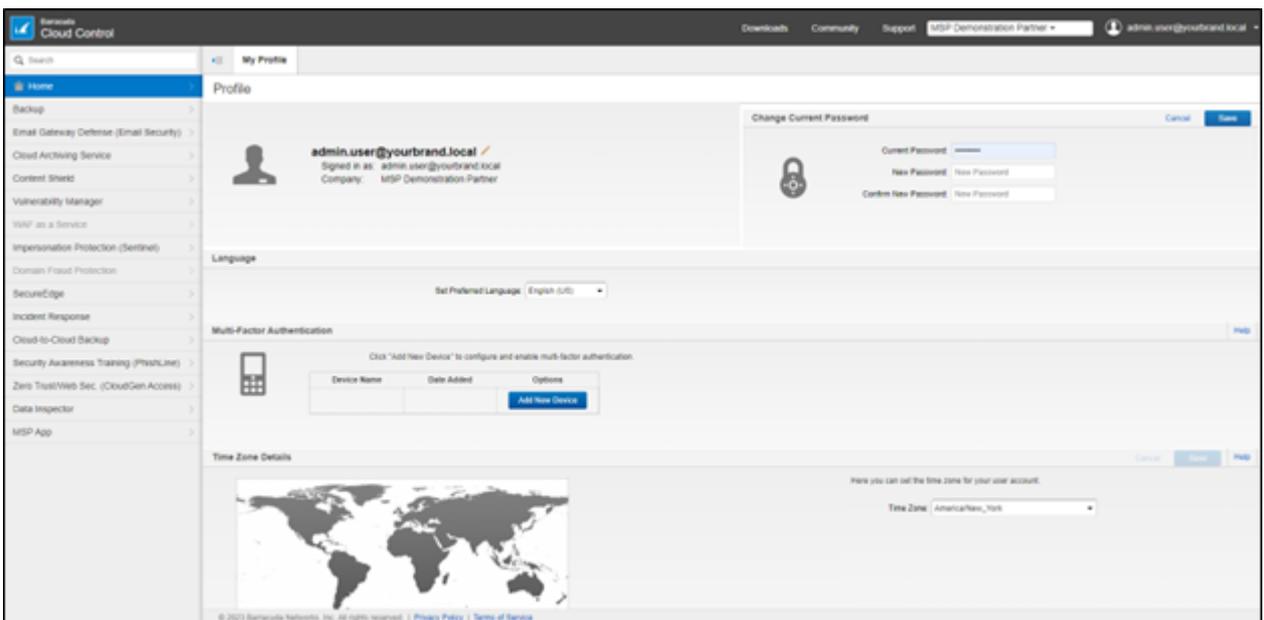

You must log in with User Admin (not Account Admin) credentials to use this procedure.

1. Login to your Barracuda Cloud Control at <http://login.barracudanetworks.com/>. The Sign-in page is displayed.

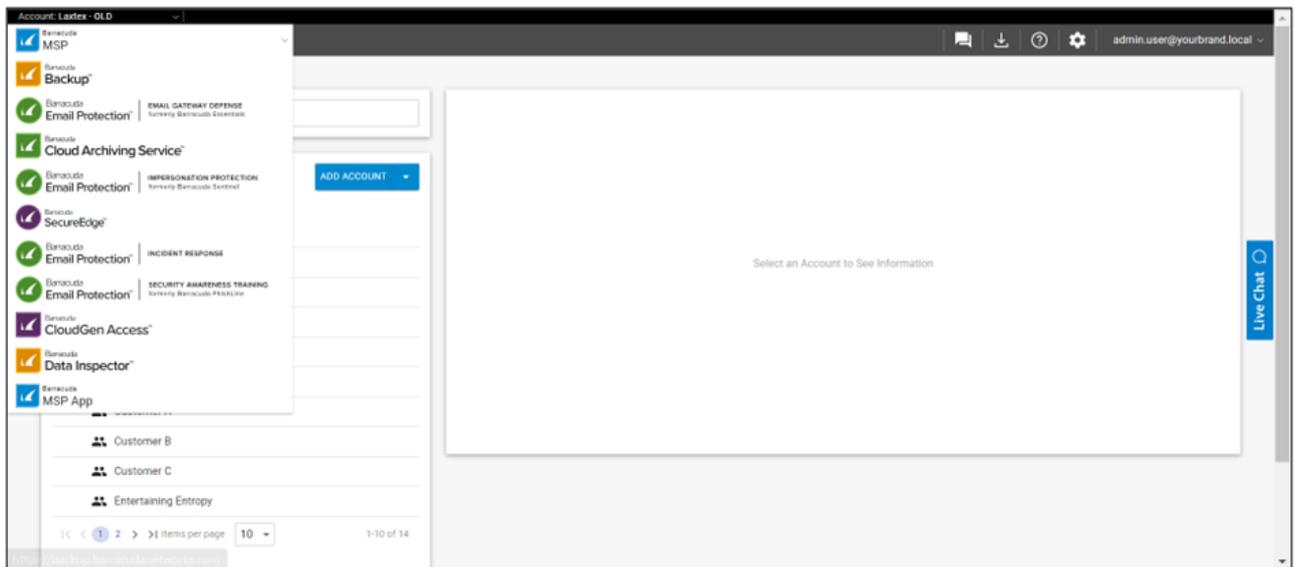

The image shows the Barracuda Sign In page. It features the Barracuda logo at the top left. Below the logo, the text reads "Sign In with your Barracuda Account". There is a text input field for "Email Address" with a blue border. Below the input field is a blue button labeled "NEXT". Underneath the button is a link that says "CREATE A USER". At the bottom, there is a small disclaimer: "By clicking 'Next', you agree to our Privacy Policy. Need Help? Contact Barracuda Networks Support".

2. Enter your credentials. Your Profile page is displayed.

The image shows the Barracuda Cloud Control "My Profile" page. The page has a dark blue header with the "Barracuda Cloud Control" logo on the left and navigation links (Downloads, Community, Support) on the right. The user is signed in as "admin.user@yourbrand.local" with the role "MSP Demonstration Partner". The main content area is divided into several sections: "Change Current Password" with fields for Current Password, New Password, and Confirm New Password; "Language" with a dropdown menu set to "English (US)"; "Multi-Factor Authentication" with a section to "Add New Device" including fields for Device Name, Date Added, and Options; and "Time Zone Details" with a world map and a dropdown menu set to "America/New\_York". A left-hand navigation menu lists various services like Backup, Email Gateway Defense, Cloud Archiving Service, etc., with "MSP App" at the bottom.

3. At the left navigation page, scroll to the bottom of the listing and then click **MSP App**.

The MSP Accounts page is displayed.

**Important!**

If the MSP page is not displayed and you see the following error message, you are not using User Admin credentials. Ensure you have logged in as a User Administrator.
