

## Integrating Barracuda CloudGen Firewall

<https://campus.barracuda.com/doc/99620235/>

### Prerequisites

Before integrating Barracuda CloudGen Firewall, if your firewall version is less than 8.3.1, update to version 8.3.1 or higher.

If your firewall is version 8.3.1, ensure you have applied the hotfix available [here](#).

### To enable streaming

- Do one of the following:
  - If your Barracuda CloudGen Firewall version is 8.3.1, follow the steps at [How to Enable Integration with Barracuda XDR](#). See the note below.
  - If your Barracuda CloudGen Firewall version is 9.0, follow the steps at [How to Enable Integration with Barracuda XDR](#). See the note below.

For either version, ensure that you add a dummy value to the shared secret.

### To Integrate Barracuda CloudGen Firewall

1. In the Barracuda XDR Dashboard, navigate to **Administration > Integrations**.
2. On the **Barracuda CloudGen Firewall** card, click **Setup**.
3. Type your serial number.
4. Optionally, click **Add Another** and type another serial number.
5. Click **Save**.
