Quick insights for protecting yourself and
your company from online threats

Why We Don't Do Taxes

At this time of year we get many requests for tax-related email phishing campaigns.

While we normally jump at the chance to provide you with emails that are timely and topical, our policy is to avoid anything that can put you at risk with entities that have made it clear that doing so violates copyright or other policies—the IRS being one of them.

So while we will always work with you to develop campaigns that fit your needs, we will only do so in a way that protects your company and PhishLine.

If you're struggling for ideas for a seasonal or event-related campaign, your consultant is your go-to resource. If they can't find something for you in the Content Center Marketplace™, they will gladly work with you to provide new options.

TAKE PART IN OUR UPCOMING BENCHMARKING CAMPAIGN

All PhishLine customers are invited to participate in a free benchmarking campaign in April.

By taking part, you'll have the opportunity to gauge employee

security awareness levels in key categories.

To find out more or sign up for this campaign, please talk to your consultant today.

PhishLine creates first INFO-COMIC, another way to train!

Comics and graphic novels are so in right now we couldn't help but jump on the bandwagon!

We developed the Info-Comic—part infographic, part comic—as an entertaining way to educate employees about information security. It's also one more tool in your training arsenal.

In our first edition, Business Email Compromise (BEC) scams are explained using an engaging narrative style while the drama

plays out in colorful detail. Watch for our first Info-Comic in the latest Click Thinking bundle!
