

Click Thinking

Cyber Security Awareness Month Issue

We're celebrating Cyber Security Awareness Month by providing you with more tools, tips and tactics to create a cyber secure organization! We look forward to helping you make the most of this content!

Conquering the 13 Email Threat Types

We're going all out to help you conquer the top email threats impacting businesses today. It starts with our new ebook, [13 Email Threat Types to Know About Right Now](#), and includes:

- 13 new Quick Launch campaigns in the Barracuda PhishLine platform that address each threat
- A special Click Thinking bundle that includes tip sheets for each threat and other helpful tools
- Insights into using this content to improve your company's overall information security stance

It's our way of helping fortify your organization against cyber threats. If you have questions contact Barracuda Support.

Celebrate Awareness Month with Benchmarking!

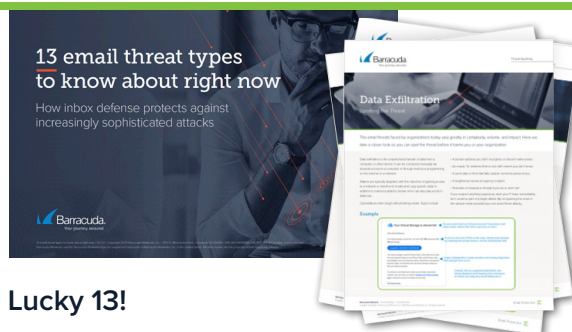

There's still time to sign up for the October Benchmarking campaign! Make sure your company is included in this important effort to help organizations assess how vulnerable front-line employees are to email phishing attacks.

By simulating a real phishing campaign for all participants, benchmarking lets you safely find out where your company stands and compares to industry standards. This way you can mitigate risk and fortify your overall information security stance! Contact Barracuda Support to sign up by October 9, 2020!

Your Go-To Resource for Assistance

Have a question about launching a simulated email phishing campaign? Need assistance with the growing number of features and enhancements to the PhishLine platform? Barracuda Support is your source for answers—and we're always ready to help!

We understand the complex issues you face in the fight against cybercrime, so when you face a barrier we can hit the ground running, offering solutions that make sense for you and your organization. Make the most of the expertise that's always here for you. Contact Barracuda Support the next time you need help!

Lucky 13!

Good things come in 13's this month as we celebrate cyber security awareness. Visit the PhishLine dashboard to download the Click Thinking bundle including our e-book, threat spotting sheets and more!
