

# Click Thinking

Product News and Updates

## NEW THIS MONTH

### Welcome to a New Year of Security Awareness Training

Barracuda Security Awareness Training is kicking off 2022 with a renewed commitment to content. This month's highlights include:

- **Resolution Checklist**

Everything you need to make 2022 your most secure yet.

- **Data Privacy Infographic**

Your key to making National Data Privacy Week a success.

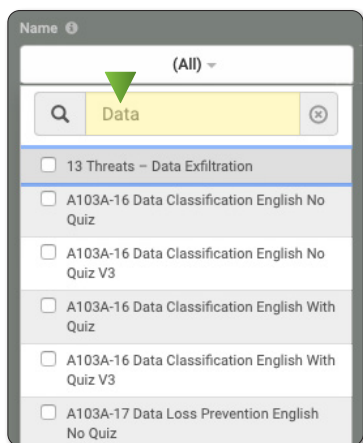

- **Click Thinking Express**

Four more modules tailored for today's attentions spans.

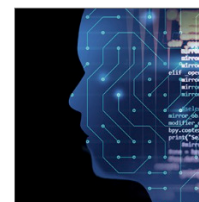

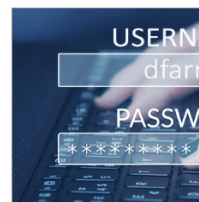

In addition, our ongoing effort to create an optimal experience for you means even more enhancements to the Barracuda Security Awareness Training platform this year!

### National Data Privacy Week is January 24—28

Your data makes your organization unique, so protecting it is extremely important. During National Data Privacy Week we encourage you to use the content we've curated to help you make the most of the week. This includes several long-form and express modules as well as infographics, email templates and landing pages. Use the search term 'data' in any of the Content Center search filters to access this content or contact Barracuda Support.

## CONTENT BY THE NUMBERS

Emails, landing pages, training and more await in the content center

When it comes to building a fortress against cybercrime, our content center delivers the training you need to succeed:

- 45 training modules with and without quizzes
- 15 Click Thinking Express modules, with several more on the way
- 18 games that entertain and educate
- 2,450+ simulated phishing emails and nearly 400 landing pages
- Content in 20+ languages in addition to English

Check it all out today or contact Barracuda Support for assistance.

## QUICK TIP: MAKE REGULAR CAMPAIGNS A HABIT

According to our [research](#), the accuracy of user-reported emails increased by 74% after just two security awareness training campaigns. The takeaway here? Regular campaigns make for smarter employees and a stronger security stance for your organization.
