

Resolution Checklist

Six resolutions to boost your security awareness stance!

Add the Barracuda Security Awareness Training (BSAT) tool to your favorites list

In addition, log in daily to see what's new and make it a habit!

Plan regular phishing and training campaigns

Regular training makes employees a strong line of defense against cyberthreats.

Make Cybersecurity Awareness Month (CSAM) Count

Every October is CSAM, a theme you can leverage with specialized training, content and more provided by Barracuda Security Awareness Training (BSAT).

Participate in the April and October benchmarking campaigns

Benchmarking shows who's clicking and how vulnerable your employees are, giving you insights into where training can be targeted. Campaign sign-up emails go out the prior month.

Check the Content Center for real-world threats added monthly

Based on real malicious emails flagged by Barracuda security, these make for genuine phishing simulations.

Download the monthly Click Thinking Bundle

It's packed with the latest newsletter and product updates, as well as training guides, infographics, specialized content and more.
