Product News and Updates

NEW THIS MONTH

Password Please

World Password Day was May 5, and we're helping you make passwords a priority with insights on the topic and more:

- **Click Thinking Express**
  Topics include Passwords, Network Security and Business Email Compromise.
- **Strong Passwords Infographics**
  The latest tips on improving password security—your first line of defense against cyberthreats.

In addition, we continue to work behind the scenes to enhance the Barracuda Security Awareness Training platform to make it easier, more intuitive and, most important, simpler for you to navigate as your primary training and simulation tool!

Specialized Training and Curriculums

We recently unveiled a set of ten new animated training modules for the Australian market. Covering eight key threat mitigation strategies and two supplemental topics, this curriculum is one of several turnkey training sets that make it easier to pinpoint and reach specific goals. For a comprehensive listing of specialized training, check out our latest module listing.
