Product News and Updates

SUMMER 2022 EDITION

Systems Administrators Spotlighted

July 28 is Systems Administrators Day, and we're showing them some love with a summer-time bundle that includes:

- **Click Thinking Express**

New modules on Incident Response, Insider Threats and other topics that put information security in perspective.

- **Summer Cyber & Personal Security Tips Infographic**

Tips for avoiding summer scams and other cyber risks while traveling with your devices.

Whether you plan to vacation near home, abroad or simply sneak in a few day trips, we'll help your employees stay safe this summer. And that goes for systems administrators, too!

Disclosures Just Got Easier

We're pleased to announce that we've hard-wired the brand disclosure to all landing pages, making it easier for you to create believable simulated phishing campaigns. This means:

- No more manually adding the disclosure to emails.
- The updated disclosure will now appear on all landing pages.
- More convincing phishing email simulations.

This disclosure is no longer needed on emails using brand names:

This content is neither endorsed, nor sponsored, nor affiliated with (Brand Name). (Brand Name) is the registered owner of logos and trademarks. This content is for educational purposes only.

This disclosure will now automatically appear on all landing pages:

This content is neither endorsed, nor sponsored, nor affiliated with the rightsholder(s) represented herein. Any trademarks, logos, or copyrighted material is the property of the registered owner. This content is for educational purposes only. In addition, this website is a component of a Security Awareness Training solution provided by Barracuda Networks, Inc. on behalf of [Customer Name] More information (links to Campus)
Note: the Customer Name field is dynamically generated for each customer.

CSAM Preview

October is Cyber Security Awareness Month, and while it may seem a long way off we're deep into planning an extraordinary content bundle. This year's theme is: it's easy to stay safe online. To support it we'll have new modules on topics such as multi-factor authentication, strong passwords and more.

Our next benchmarking campaign will also take place in October. This free opportunity to compare your organization's click rate to other clients and industries is an excellent way to assess your overall information security awareness stance. Watch for details in our next Click Thinking that drops in September or contact Barracuda Support.

MAKE THE MOST OF OUR RESOURCES

Looking for new ways to train or put your own spin on Cyber Security Awareness Month? Check out the resources on Barracuda Campus where you'll find the latest training content, archived Click Thinking bundles and more. It's everything you need to make information security a hot topic this summer and beyond!
