Product News and Updates

NEW THIS MONTH

We Love What We Do: Protecting You

Valentine's Day is upon us, so we're showing how much we care with more ways to fend off cyber attacks and secure your organization's valuable data!

Basic Attack Techniques Interactive Training

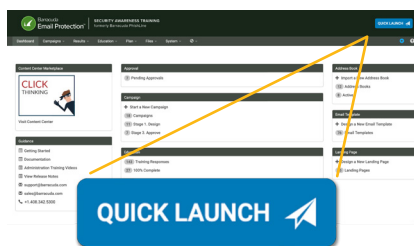

Our latest interactive training helps users identify tactics commonly used to compromise individuals and organizations. Games, short videos, infographics and more take the boredom out of training while driving home key information security concepts.

Comprehensive Data Privacy Training

Data Privacy Week is behind us but the importance of protecting your valuable information is ongoing. Fortify your networks and shield your organization from data losses and devastating breaches with our of data-centric animated and express modules. Check our latest module listing on [Barracuda Campus](#) for details.

Tried Quick Launch Yet?

Clients across BSAT are learning who's putting their organization at risk the easy way. Their secret? The Quick Launch button in the upper right corner of the Barracuda Security Awareness Training dashboard! Quick Launch campaigns take minutes to launch and learn from. With hundreds to choose from in several languages, it's never been easier to test and target where training matters most. Try it today!

Start testing in minutes with Quick Launch!

LOOKING AHEAD

New Sign-On for SAT

Barracuda Cloud Control—a convenient, secure login process—will soon be a feature of Barracuda Security Awareness Training, eliminating the need for multi-factor authentication. This enhancement brings the BSAT platform in alignment with the Barracuda product suite making logins across the platform consistent and easier.

If you don't have a cloud account, a simple conversion tool will be provided. For more information, contact Barracuda Support.

Platform Migration Coming

The Barracuda Security Awareness Training platform will be migrating to a new cloud provider. To ensure no testing or training interruptions, please review the [Email Allow List and Best Practices](#) information on Campus, including the new IP block 3.145.232.16/28, and make the necessary changes to your email security solutions.

Campus and Support

Have a question? Need an earlier edition of Click Thinking? You'll find these and more in [Barracuda Campus](#) or Barracuda Support, your one-click comprehensive support network.
