### Cybersecurity Awareness Month Preview

#### Be a Cybersecurity Awareness Month Champion

October is Cybersecurity Awareness Month (CSAM), and we're pulling out all the stops to make this one a month to remember! The theme this year is 'Become a Cybersecurity

It's time to start planning for Cybersecurity Awareness Month. Take advantage of everything we have to offer to make yours a success!

Awareness Month Champion' and we'll help you do so by providing lots of new training and insights to fortify your organization against cyber threats.

Whether you're new to CSAM or a seasoned participant, we encourage you to get involved and leverage everything the month has to offer!

#### Interactive Training Set Complete in Time for CSAM

A year ago we launched our first Click Thinking interactive training module as part of an ambitious plan to revamp our core training

The Advanced Data Security interactive training module helps employees gain a greater appreciation for the key role data plays in your organization and the role they play in securing it. It's one of eleven interactive training modules you can begin using now to raise your organization's information security awareness IQ.

offering. With the release of our new *Advanced Data Security* module, we're pleased to announce we've achieved our goal! What does this mean to you?

For starters, you can kick off CSAM covering more concepts in less time while engaging employees with high-quality videos, games and interactive infographics. To make implementation

easier, we're also developing a rollout guide you can use to plan year-end and 2024 training. Check out all of the Click Thinking interactive training modules in the Content Center using the search term 'CTI.' And don't forget to keep watching Click Thinking and the Security Awareness Training dashboard for more information to help you maximize this fun and engaging training set.

### BENCHMARKING UPDATE

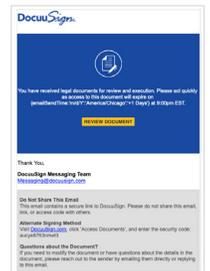

#### Enrollment Is Open!

Benchmarking is a CSAM tradition at Barracuda. Sign up to gauge your organization's vulnerability to phishing. Key dates include:

<b>October 5</b>	Last day to <a href="#">contact support</a> to sign up
<b>October 9</b>	Campaign kicks off for all participants
<b>October 20</b>	Campaign wraps up for all participants
<b>by October 31</b>	Organizations receive custom report outlining how they compare with other participants

#### Current-Day Evil Proxy Phish Featured

Benchmarking will mimic Evilproxy attacks currently targeting Microsoft 365 users. This real-world phish tests a recipient's ability to determine if a DocuSign email and request to log in is legitimate. See our page on [Campus](#) for more benchmarking information.

#### You're Welcome!

We believe benchmarking is an essential component of a security awareness plan, so we're providing this concierge-level perk to all SAT clients at no extra cost. We also take care of everything from setup to reporting—all you have to do is provide an address book, relax and watch for your results. Why wait? [Sign up now!](#)
