NEW THIS MONTH

AI-Boosted Personalized Extortion on the Rise

Scammers are using AI and data available freely online to craft highly personalized phishing attacks on individuals, employees and business executives. We shine a light on the issues and share insights into protecting your organization in our latest content bundle!

- **New Personalized Extortion** animated training module available with or without quiz that tests employee's knowledge.
- **New infographic** highlighting how scammers use AI and open-source data to craft highly specific phishing extortion scams.

Download the Personalized Extortion training content via the SAT dashboard today—and safeguard your organization's most valuable assets!

Avatar Series Adds Mobile Device Security

Like computers, mobile devices need protection from threats like phishing attacks, ransomware demands and other information security risks. To this end, we've added 'Mobile Device Security' to our growing catalog of Avatar-based modules that add a human touch to training.

Mobile Devices

Protecting the Portable

Check out this and other insightful general security awareness training topics available in the SAT platform. Locate titles in the module listing included in this month's content bundle and search for them by name in the platform!

Spring Benchmarking Sign-Up Starts Now

SAT's Spring Benchmarking campaign is your first chance this year to get a baseline understanding of your organization's information security stance. Don't miss these important dates:

- | | |
|--------------------------|---------------------|
| • Sign Up Window: | Now through April 2 |
| • Campaign Launch: | April 7 |
| • Campaign Runs Through: | April 18 |
| • Results Shared: | April 22 |

We do the Work

Benchmarking is easy. You sign up and provide a company address book, we run the campaign and send a custom report when done that includes click rate, peer industry comparisons and more.

If you've benchmarked before, consider doing so again. Each unique campaign provides a deeper understanding of employee behavior and risk. To check out previous campaigns, visit our [benchmarking archive](#). For Spring campaign sneak peek, check the benchmarking overview in this month's Click Thinking bundle.
