Product News and Updates

NEW THIS MONTH

This Month's Focus: AI Social Media Scams

Social media scammers are increasingly using AI to create realistic personas to engage targets. In this month's training module, *AI-Generated Social Media Scams*, viewers will learn how to distinguish what's real, what's not, and how to avoid being victimized.

AI Generated Personas
deceive users
into sharing
sensitive information

Download the *AI-Generated Social Media Scams* module available now in the Content Center and start protecting your employees and organization today!

Spring Benchmarking Update

The April Benchmarking Campaign is officially underway! For those who missed out, it's a simulated phishing campaign that yields significant insights into an organization's susceptibility to phishing attacks. When complete, participants receive a detailed report outlining click rates, industry comparisons and more. Our next opportunity to participate is October. Check out this [benchmarking overview](#) on Barracuda Campus for details.

April: Identity Management Day

Personally
Identifiable
Information

Identity Management Day, the second Tuesday in April, emphasizes the importance of implementing effective identity management practices. Our Personally Identifiable Information (PII) animated training module can help you in these efforts. Search for it by name in the Content Center.

Identity Management Day, the second Tuesday in April, emphasizes the importance of implementing effective identity management practices. Our Personally Identifiable Information (PII) animated training module can help you in these efforts. Search for it by name in the Content Center.

Click Thinking Interactive Training

Click Thinking | Interactive Training

Hybrid Work Security

Fight training fatigue with our comprehensive Click Thinking Interactive Training catalog. Engaging, entertaining and educational, these 11 hands-on courses turn everyday employees into a strong line of defense against cyberthreats using videos, games and infographics. For a comprehensive listing of what's available, check out the chart below or download the module listing in this month's content bundle.
